Allowable Subject Matter

1. Claims 1 through 40 are allowed.
2. The following is an examiner's statement of reasons for allowance: The prior art of record does not disclose the first and second controller having dynamic interaction compensation whereby a pressure change in one of the friction elements will command a pressure change in the other friction element during a time progression of the swap-shift. Previous inventions have used input and output speeds of the gearsets to operate a closed loop pressure control, the current invention improves upon the prior art by also using the pressure change of the friction element in each gearset as an input to the pressure determination of the friction element of the other gearset.

Any comments considered necessary by applicant must be submitted no later than the payment of the issue fee and, to avoid processing delays, should preferably accompany the issue fee. Such submissions should be clearly labeled "Comments on Statement of Reasons for Allowance."

Conclusion

Any inquiry concerning this communication or earlier communications from the examiner should be directed to Brian J. Broadhead whose telephone number is 571-272-6957. The examiner can normally be reached on Monday through Thursday.
